

MORDIALLOC LIFE SAVING CLUB

FUEL & TRAVEL REIMBURSEMENT POLICY

During the course of the season, some members may volunteer or be asked to assist in the transportation of equipment to carnivals both intra and inter state. To assist those members, fuel costs will be reimbursed as per guidelines quoted from the Australian Government/ATO as follows:

Under the cents per kilometre method:

- A single rate is used. Your claim will be based on 72 cents per kilometre from 1 July 2020
- A capped allowance of \$500 will be used.

To assist the club in covering these expenses, any competitor who is competing at a carnival where club equipment needs to be transported to the venue, will be requested to pay a transport levy (to be determined based on the distance/place of venue)

Any person involved in transporting club equipment (trailer) and if involved in an accident will be liable through their own insurance coverage.
